2026 BBRF EDUCATIONAL WEBINAR

**School as a Platform for Neurobehavioral
Adaptation: Getting the Individualized Education
Plan Right** A Q&A with Dr. John Constantino

John N. Constantino, M.D.

Liz and Frank Blake Chair for Children's Behavioral and Mental Health
Chief, Center for Behavioral and Mental Health
Children's Healthcare of Atlanta

Vice Chair, Department of Pediatrics
Professor of Psychiatry & Behavioral Sciences, Pediatrics, and Genetics
Emory University

**Thursday, December 10, 2026
7:00PM – 7:30PM EST via Zoom**

Teachers, school counselors, and other educational professionals are on the front line of interacting with children with mental health issues and can often be among some of the first people to see that a child is struggling.

For youth with developmental and behavioral challenges, school could be one of the greatest and most time-intensive levers of maturation, often more influential than psychotherapy or medical treatment.

Dr. Jeffrey Borenstein, BBRF President & CEO and Dr. John Constantino will discuss some of the intricacies of individualized education planning (IEP), including opportunities for educators and clinicians to adopt "precision medicine" approaches that ensure that IEPs are designed to make the most of every day at school.

Dr. John Constantino is a board-certified child and adolescent psychiatrist who specializes in the diagnosis, treatment and prevention of behavioral and mental health conditions of children and adolescents.

Registration will be required for this FREE event.
