Presenting the Pardes Humanitarian Prize in Mental Health and the Outstanding Achievement Prizes

PARDES HUMANITARIAN PRIZE IN MENTAL HEALTH

This international Prize recognizes a physician, scientist, public citizen or organization whose extraordinary contribution has made a profound impact on advancing the understanding of mental health and providing hope and healing for people who are living with mental illness. Established in 2014 and awarded annually, the Pardes Humanitarian Prize is named in honor of Dr. Herbert Pardes, the first recipient of the award.

The recipient of the Prize is chosen by a distinguished international Selection Committee from nominations solicited worldwide and receives an honorarium. The Pardes Humanitarian Prize focuses public attention on the burden of mental illness on individuals and society and the urgent need to expand and enhance mental health services in the United States and globally.

This year's Awards ceremony will honor **Franca Ma-ih Sulem Yong** with the 2024 Pardes Humanitarian Prize in Mental Health.

The ceremony will also include a special tribute to honorary Pardes Prize winner the **Graham Boeckh Foundation**.
